Fire - Three Essential Elements

Page 4 of 13

Anything that burns is fuel for a fire. The easier it burns the higher the risk it poses if there is enough of it to feed a fire and help it to spread to another fuel source.

Employer and Employee Responsibilities

Page 7 of 14

Your employer will post plans showing emergency escape routes and the location of fire safety equipment such as fire extinguishers and emergency alarm buttons – referred to as **call points**.

You should familiarise yourself with the location of emergency call points, fire extinguishers and fire exits in all areas of your workplace.
